

JOSE NEHME

EDUCATION

Concordia University, Montreal, QC

Bachelor's in Computer Engineering, Electrical and Computer Engineering.

- Programming & Software Development: COEN 243, COEN 244, COEN 352
- Computer Systems: COEN 212, COEN 313
- Real-Time and Embedded Systems: COEN 320, COEN 346
- Communication Networks and Protocols: COEN 366
- Signals and Control: ELEC 242, ELEC 342, ELEC 372
- Software Development Processes: SOEN 341
- Design Projects: COEN 290, COEN/ELEC 390, COEN/ELEC 490

PROFESSIONAL SUMMARY

I am a 5th-year Computer Engineering undergraduate student at Concordia University in Montreal, Canada, with a strong foundation in software development, electrical knowledge, problem-solving, and collaboration. Energetically advanced in the tech and customer service sectors, I have enhanced software performance and earned a data privacy certification. My experience merges technical proficiency with exceptional interpersonal abilities, fostering teamwork and customer relationships to drive efficiency and create positive work environments. Beyond my academic and professional pursuits, I am passionate about exploring the world through travel, immersing myself in diverse cultures and perspectives. I enjoy staying active through workouts that challenge both my physical and mental endurance. Music is another passion of mine—I love playing musical instruments, which allows me to express creativity and unwind. These hobbies not only fuel my curiosity and drive but also inspire me to bring a balanced, innovative approach to the challenges I tackle. With a commitment to continuous learning, I aim to design impactful projects that bridge technology with real-world challenges, leveraging my technical expertise and personal experiences to make a meaningful difference.

ACCOMPLISHMENTS

- Collaborated with a team of 4 in the development of an autonomous hovercraft.
- Collaborated with a team of 4 in the development of an android mobile application, connected to hardware and both communicated through a database.
- Collaborated and lead a team of 6 to develop, design and build an autonomous solar powered pool skimmer.
- Used Visual Studio, along with Postman to develop the frontend and backend of a web page for an E-commerce website.
- Created my own website
